

EXCELLENCE

The Miller Brewing Company's Partners in Excellence program recognizes suppliers who excel in the areas of quality, innovation, service, cost competitiveness and expenditures to minority-owned companies each year. Miller's Supplier of the Year is chosen from each year's Partners in Excellence.

In 2000, Miller recognized 30 of its more than 8,500 suppliers as Partners in Excellence. NorthStar Print Group was included in that elite group for the fourth consecutive year and recognized as Miller's Supplier of the Year for the second time in four years.

While NorthStar is proud of its successful partnership with the Miller Brewing Co., it offers all of its customers the same quality, service and innovation at a competitive price.

That is what excellence is all about.

Superior Performance
